VOLUME 36: No. 21

ACME, ALBERTA, THURSDAY

JUNE 20th, 1957

\$1.50 a Year, 5c a Copy

John Skakun is leaving for St. Paul where he has accepted the position of principal.

Hospital patients are Ollie Hermanson, Mrs. Harry Hunt, Mrs. Virginia Church, David Fuller.

The first annual Race Meet was held June 19 on a specially prepared track east of Carbon. A full report will appear in our next issue—we hope.

Mr. and Mrs. Goacher Sr. have taken up permanent residence in Carbon in the Spry house. Welcome to our community, Mr. and Mrs. Goacher.

The Anglican Sunday School Picnic was again rained out and is to be held Saturday, June 29th

Congratulations to Wayne Garrett, Arthur Hoivik, Robert Hood on attaining the highest honors of Queen's Scouts. Also to Mr. Isaac our Scoutmaster for his untiring efforts to put these boys where they are today.

Mrs. Mary Foray of Calgary is visiting at the home of her daughter and son-in-law Mr. and Mrs. Albert Krebs.

## LITTLE LEAGUE BASEBALL

Hi baseball fans. Swallow Little Leaguers set the Carbon White Sox on their ears here Tuesday nite in their own backyard with a solid beating 10-5. The hickory was bending the right way for Swallow and big (Swede) Hanson had to be pulled and Flip Woods did a real job of relief work but his efforts weren't equalled by the rest of the team. Swallow has a real star in right field (24 inch) Al Martin. He is worth the price of admission just to see the pitcher sweat when he comes up to bat. Young Webb is going good

## CARD OF THANKS

I wish to thank all who assisted and helped me to make my garden party a success.  
Mrs. Sally Cadman.

behind the bat and his throws to second had Carbon by two feet. Nice to see the League tighten up. See you July 2nd, Three Hills vs Carbon at 6:30 p.m. sharp. Thanks for supporting your club.

Miss Jane Roberts has won the Dominion First Prize offered by the General Board of Religious Education of the Anglican Church of the Senior Sunday School Group age 12 to 14. General Certificates have also been won by Senior Frances Kaughman; Junior, Patsy Poole, Beverly Gieck, Nigel Roberts and Stephanie Roberts.

The Duke of York Chapter I.O.D.E. Annual Rose Ball will be held Friday June 28 in the Carbon Scout Hall to the music of Scotty's Meteors.

Work is proceeding on the German Baptist Church and Rectory. A wide concrete apron has been provided at the

rear to guard against water seepage.

Work on the filter at the swimming pool has been completed. The original pump proved too powerful and a new one is being obtained.

## BOY SCOUT ACTIVITIES

BY THE S.M.

Saturday the 15th of this month was an affair of affairs for three members of the Troop. Arthur Hoivik, Wayne Garrett and Bobby Hood made a trip to Calgary together with Mr. and Mrs. S. J. Garrett and Mrs. Hood, so that they could attend a Queen's Scout Recognition Ceremony. Prior to this ceremony, invitations had been sent out to the Queen's Scouts and their Parents and the Scoutmasters involved, to be at the First Baptist Church,

Calgary at 7:30 p.m. Unfortunately, due to a severe attack of old age, I was unable to attend, but heard a lot of what went on from the boys on their return.

The purpose of the Ceremony was to officially recognize the boys who had completed their Queen's Scout training—the highest Badge that the boys could obtain, and the

most important. Upon this occasion they were presented with their Queen's Scouts Certificates, suitably framed, and signed by the Chief Scout for Canada, Governor General The Right Honourable Vincent Massey, and these Certificates are well worth seeing. If you are interested, ask any of the above mentioned boys and I am

PUTS 5 O'CLOCK TRAFFIC IN ITS PLACE!

You need extra-spirited response—you get it with Oldsmobile's fabulous Rocket engine. You need quicker, easier steering—you get it with new Dual Centre-Control Steering. No car in Olds' field handles so handsomely!

HIGHWAY HERO—WITH THE SEVEN-LEAGUE STRIDE!

Let the Rocket lengthen out its stride, and far-away places draw luxuriously close. Olds cruises so solidly, so sumptuously—trips that once would tire you are no trouble at all. Oldsmobile has a talent for travelling!

# Road-ruling grace...a specialty of OLDSMOBILE

It's only when you take a demonstration drive that you discover the exhilarating difference between Oldsmobile and all other cars! For it's only on the road that Oldsmobile's major ride and handling advances, like the Wide-Stance Chassis and Pivot-Poise Front Suspension, reveal themselves. Oldsmobile's graceful sureness of control... its reflex-quick response to driving demands... have set an exciting new standard of road behaviour.

Test Oldsmobile's road-ruling qualities yourself. Visit the Oldsmobile quality dealer of your choice soon and take a trial drive. While you're there, take a good close look at Oldsmobile's luxury—Olds welcomes close inspection! Another thing—check the price... it's probably less than you'd guess!

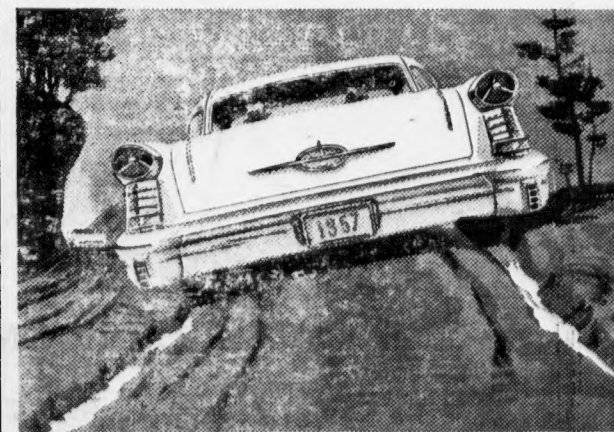

A GENERAL MOTORS VALUE

CORNERING? OLDS IS AT ITS LEVEL BEST!

You've never felt so secure—Olds keeps an exceptionally even keel! Rubber-cushioned front torsion bar takes lean out of turns, big-car springs are set wider apart both front and rear. The stability that's yours in Oldsmobile is unbeatable!

ROUGH ROADS MEET THEIR MATCH IN OLDS!

Secret of the smoothness? A chassis-full of new road-leveling ideas—to cushion shock, to prevent rebound on large bumps, to counter "wheel fight", to smother vibration. Don't miss Oldsmobile's spectacularly comfortable new ride!

# GARRETT MOTORS, PHONE 31, CARBON

**NO ONE WAS HURT**—This crash occurred just east of Moosomin in the grey light of dawn, leaving two cars complete wrecks, but leaving no more than light injuries on seven persons in the cars. One car was driven by James Boles, of West Kildonan, who was going east. The other car, heading west, was driven by Detrick Hildebrand, of Herbert, Sask. With Mr. Boles were his wife, Mr. and Mrs. F. Rasmussen and two children. —Photo by Predinchuk.

### Cat moults fur hide and grows another

Calves and lambs with two heads, fish with no tails, pet skunks... When it comes to odd animals, the Eastern Irrigation District certainly has its share.

One day recently Hans Lillehei of Schandia picked up the family cat, an Angora type, and discov-

ered that its fur was coming loose along the under side of its tummy.

A couple of days later the hide was loosening at the legs also and pink flesh was exposed. It wasn't long before the cat looked like a rag doll with its hide flapping away.

One morning Hans discovered the discarded cat hide in the yard—and there was Mr. Cat in pink hide with fur only at its neck, legs and tail.

Hans tells us the cat suffered not at all. It started to grow fur again and now is completely covered with fine hair.—The Bulletin, Brook, Alta., May 16, 1957.

The United States is the world's greatest oil-consuming nation.

### VALLEY THIRSTS FOR WATER FACT FINDING MISSION TOLD

Water use in the Red River Valley would be doubled if it could be piped into the towns, villages and farms of the valley, the fact-finding mission representing the Arthur Little Company of Boston was told in Morris Friday evening.

And this was on the basis of present population. With water in the valley for commercial and domestic consumption it was predicted that the population would increase ten-fold from the present 40,000 residents of the valley.

The three representatives of the Arthur Little Company toured the Valley for four days and found a

thirst for water. They visited Altona, Winkler, Carman and Morris. Water, they were told, was the one essential element needed for the continued growth of the valley. Without water, the valley would become stagnant.

Main interest of the fact-finding group is the industrial potential of the valley. They expect to have their report completed in about two-three months time. Surveys still have to be made of the water source possibilities and engineering problems of the pipeline.

Both water source and engineering were touched upon at the Morris meeting. The Greater Winnipeg Water District is the immediate source of pipeline water. However, it was pointed out that around 1970-80 the main water system with its source at Shoal Lake may be overloaded. New lines to the Shoal Lake area would have to be built.

Whether or not farmers would be able to participate in the pipeline water was a question raised by Reeve C. J. Neufeld of Morris. He felt that a water by-law would pass easier if this was possible. J. J. Peters, president of the Red River Valley Development Association, felt that the pipeline would develop in the same way as the Manitoba hydro had done.—The Red River Valley Echo, Altona, Man., May 22, 1957. 3249

### Mixer cover

by Alice Brooks

Let this clever doll keep your electric mixer spotless! Just sit her on top of it—her long, full skirt is its protective cover! Use colorful remnants—ideal gift!

Pattern 7199: Pattern, transfers, directions for mixer-cover doll. Easy! Fun to make!

To obtain this pattern send thirty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Department P.P.L., 60 Front Street, W., Toronto

Two Free Patterns — printed in our Alice Brooks Needlecraft book — stunning designs for yourself, for your home—just for you, our readers! Dozens of other designs to order—all easy, fascinating hand-work! Send 25 cents for your copy of this wonderful book right away!

### BACKACHE May be Warning

Backache is often caused by lax kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now. 81

## Here's Your Chance to PROTEST

### Against THE RAWEST DEAL FOR FARMERS IN THE WORLD!

Minutes of Banking and Commerce Committee,  
House of Commons, Ottawa, April 12, 1956

**MR. ARGUE:** In your study of agricultural policy in other nations of the world, do you know of any advanced nations which do less in the way of support prices and other policies for agriculture than is done by our country?

**DR. E. C. HOPE, Chief Economist, Canadian Federation of Agriculture:**

No, I do not know of any country that does less.

Are you for **ACTION** with the CCF or  
**STAGNATION** with the Liberals?

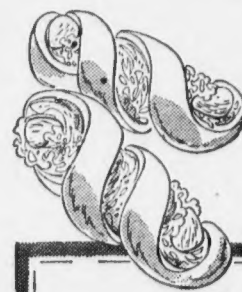

There is only **ONE** answer:

### Delicious!

Serve warm, generously buttered... a delicious tea-time treat. If you bake at home there's never a failure when you use dependable Fleischmann's Active Dry Yeast!

#### ALMOND TWISTS

1. Measure into bowl  
1 cup lukewarm water  
Stir in  
2 teaspoons granulated sugar  
Sprinkle with contents of  
2 envelopes Fleischmann's Active Dry Yeast  
Let stand 10 minutes, THEN stir well.
2. Cream  
1/2 cup butter or margarine  
Blend in  
1/2 cup granulated sugar  
1 1/2 teaspoons salt  
Blend in, part at a time  
2 well-beaten eggs  
Add the yeast mixture and  
1 teaspoon vanilla  
Stir in  
2 cups once-sifted all-purpose flour  
and beat until smooth and elastic.  
Work in an additional  
2 1/4 cups (about) once-sifted all-purpose flour
3. Turn out on lightly-floured board; knead until smooth and elastic; place in greased bowl. Brush top of dough with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 hour.
4. Meantime prepare and combine

- 3/4 cup finely-crushed cracker crumbs  
1/2 cup blanched almonds, finely-ground  
3/4 cup granulated sugar  
1 slightly-beaten egg  
2 tablespoons water  
1 1/2 teaspoons almond extract

5. Punch down dough. Turn out and halve the dough; set one portion aside to shape later. Roll one portion into a 12-inch square. Spread 3/4 of square with half the crumb mixture. Fold plain third of dough over crumb mixture, then fold remaining third over top—making 3 layers of dough and 2 of filling. Cut rectangle into 18 strips. Twist each strip twice; place on greased cookie sheet. Press 2 or 3 blanched almonds into filling of each twist. Brush with melted butter or margarine; sprinkle with sugar. Shape second portion of dough in same manner. Cover. Let rise until doubled in bulk—about 1 hour. Bake in moderate oven, 350°, 20 to 25 minutes. Yield: 36 twists.

NEEDS NO REFRIGERATION

## Officials tour Estevan area

Touring the Midale oilfield, the Saskatchewan Power Corporation's Souris River generating plant at Estevan, the Coalfields and the Boundary Dam project yesterday afternoon was a group of government officials including two from the United Kingdom.

H. J. B. Linott, deputy to the under-secretary of state for Commonwealth Relations, of London, England, was the chief guest on the tour. He is on an extended visit to Canada and currently is in Saskatchewan.

During his visit to the Souris River generating plant, he showed particular interest in turbo-generator installation that had been manufactured in England.

Accompanying him was D. Burdett, assistant to the United Kingdom Trades Commissioner, Winnipeg; Bruce Gibson, director of crown reserves division of the provincial department of mineral resources; B. N. Arnason, deputy minister, provincial department of co-operation; W. J. Hansen, director of trades services for the department of co-operation.

Conducting the party on their tour of the Estevan was F. J. Smart, superintendent of the SPC's Souris River generating station.—The Mercury, Estevan, Sask.—May 16, 1957.

## TEACHERS ARE STUDENTS FOR DAY

Teachers of grades one, two and three in Districts 10 and 29 went back to school Monday to attend a reading service convention conducted by Miss Alice Heenan, educational consultant for a textbook publishing house. The gathering here held in the public school auditorium was one of several being held at various parts of the province during May and some 74 teachers from the inspectorates of L. A. Floyd and Mr. Robson attended.—The Guide, Killarney, Man.—May 9, 1957.

## DEAD BODIES TO GET CITY WORKS' ATTENTION

The city Works Department is going into the undertaking business. They are going to undertake to get rid of a number of "dead bodies" which are messing up vacant city property, causing a nuisance and holding a health threat. These "dead bodies" are dismantled and abandoned cars which are dotting such property in various sections of town, 22 having been counted on the South side, alone.—The Sun, Swift Current, Sask.—May 22, 1957.

HAROLD EDGE (left) examines Ron Davies' "texture" designs that will be soon seen on Dominion Textile Company's fabrics from coast to coast.

Ever wonder about the value of art exhibitions? Ron Davies, Montreal art student will tell you what they can mean to a struggling young painter while trying to crowd in studies, some day some evening classes, at art school.

Some of his work was included in the School's annual exhibition at the Montreal Museum this spring and along came the bright-eyed chief designer of Dominion Textile Company, Harold Edge.

Cutting the story short, the striving young artist collected \$200.00 for a group of designs which the textile design people call "textures". They will be used as background patterns for prints in a variety of end-products, dress goods, draperies, shirtings and so on, which will appear on store counters all across Canada.

Keeping an eye on what young Canadian artists are doing is one of the pleasant assignments, said the textile company design chief. "It is encouraging and at the same time frustrating. There are many fine painters and designers in Canada, particularly among young people, but the technical demands of designs for printing textile materials really make it difficult for their work to be successfully adapted to this use. But we keep looking, and every now and then find something that really 'rings the bell'."

Ron Davies is pleased too. The windfall will certainly help, what with his wife Thelma expecting a youngster in the fall, and his plans for a career in fine art calling for continued studies. He works for

his father's landscaping company yet manages to put in five hours a day on art work as well. Weekends he relaxes, fishing, hunting or taking photographs in the woods.

The "textures" that were spotted by Dominion Textile in this year's exhibition, were produced by a variety of methods, some drawn, some inked, some sort of "controlled blots" and one of them a carbon-paper tracing. He did them, he says, primarily as exercises in design. He is surprised when he thinks that his wife may some day wear a pretty summer frock carrying one of these patterns. Several of Mr. Davies' designs will be seen on fabrics, next year, from coast to coast.

## Home for Aged Association organized at Ponoka

At a public meeting held in Ponoka last Thursday, attended by district residents, town officials, and members of several local organizations, plans were made for the formation of a "Home for the Aged" Association.—The Record, Rimbey, Alta.—May 8, 1957.

## Saskatoon area road progress moves ahead

Favorable progress is being made on several road improvement projects planned by the Saskatchewan Department of Highways for the Saskatoon area this season, according to M. G. Jacoby, Division Engineer for the district.

Mr. Jacoby reports that construction work began early in May when Evans Construction Company started laying gravel base course in preparation for blacktop on highway No. 2 south of Cudworth. He expects that a similar operation on highway No. 5 east of Saskatoon, will begin shortly. Present plans call for a start on black-topping about the first week of June.

The remaining gap in the blacktop between Saskatoon and Prince Albert will be closed this summer if contracts awarded are completed. While construction is underway on highway No. 5 east of Saskatoon and on No. 2 south of Cudworth, motorists may avoid inconvenience by using highway No. 27. Those who pass through the construction area will be accommodated as well as possible by contractors, however.

This summer, No. 11 highway will be blacktopped from Saskatoon as far north as the 13-mile corner. At present, the South Construction Co., Ltd., is crushing aggregate for this purpose. Further black-topping slated for the Saskatoon area this year includes resurfacing 11 miles of No. 5 highway between its junction with No. 11 highway and the Borden bridge, and the resurfacing of eight miles of No. 11 highway between Hanley and Saskatoon.

The 1957 grading program planned for the Saskatoon area consists of two new projects on highway No. 14, and completion of another on highway No. 2, the latter of which was started in 1956. Highway 14 will be regraded from its junction with No. 6 to Lanigan and from Plunkett to the junction of highways 2 and 14. Portions of both of these sections are to be relocated, shortening the travelling distance.

While parts of No. 14 highway are being constructed, traffic will use the present route and so will not be inconvenienced. Where it is necessary to carry traffic during construction operations, inconvenience will be minimized by placing traffic gravel immediately behind construction.

When the two construction jobs on No. 14 highway are completed this fall, the task of reconstructing the grade from Yorkton to Saskatoon via highways 14, 2 and 5, to present day standards, will have been accomplished.

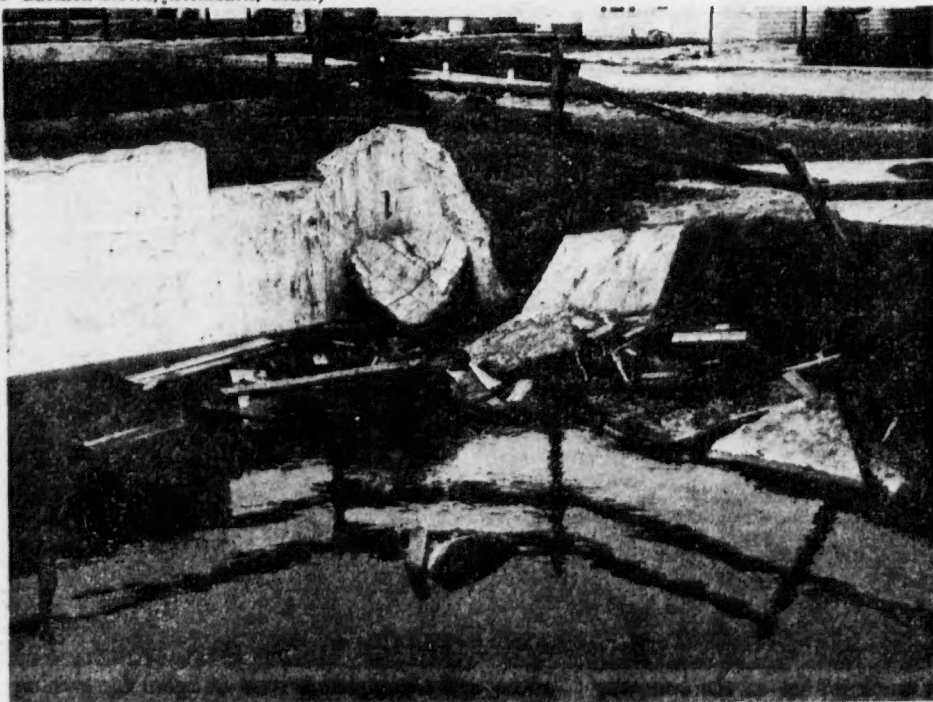

A small amount of grading remains to be done on highway No. 2 from Penzance to Simpson. This consists only of completing the trimming of side slopes and ditches which could not be done last year because of wet conditions.

The Canadian government has renamed the 16 peaks surrounding Maligne lake in Jasper National park in Alberta the "Queen Elizabeth ranges."

Saccharine is about 550 times as sweet as sugar.

**IF UPSET OR SWAMPED

## Funny and Otherwise

The madam of the house was feeling blue and to relieve her depressed mood confided to her maid, "I think my husband is having a love affair with his secretary."

"I don't believe it," retorted the maid. "You're only saying that to make me jealous."

There are two kinds of cleverness! One consists of thinking of a bright remark in time to say it. The other consists of thinking of it in time not to say it.

Any girl who knows all the answers has undoubtedly been out with a lot of questionable characters!

The Colonel stormed into the outpost, complaining that he had been fired at all the way up the line by German snipers. Calling his sharpshooters together, he ordered them to eliminate the snipers.

Presently, seeing a movement, a sharpshooter fired, and a German sniper fell to the ground. At nightfall the soldier crept out and brought the dead German in. "That'll teach you to miss our colonel," he said.

"It's not easy to get ahead in this world," a businessman of my acquaintance assured a young friend. "As a lad I started out at the bottom. I worked, struggled, sweated, climbing the ladder of life hand over hand, rung by rung."

"And now," interposed the friend, "you are a great success?"

"Well, no," admitted the businessman, "but I'm getting mighty good at climbing ladders."—Rotary Bulletin.

It was a filthy day. The recruits were "dumb". Private Smith was the dumbest of them all. The sergeant strode up to him. "What was your job in civil life?" he barked. "Bank clerk," replied Smith. "I suppose," sneered the sergeant, "you dusted the desks and washed out the ink-wells, and made nice cups of tea for the manager?"

"Oh, no," replied Smith. "We kept an old sergeant for those jobs."

Two automobile mechanics were heard discussing upholstery materials.

One said, "Which do you prefer, leather or fabric upholstery?"

The other mechanic replied, "I like fabric; leather is too hard to wipe your hands on."

Beggar: "Spare a copper, sir, I'm an old soldier—"

Retired Colonel, suspiciously: "Oh, you are, are you? What regiment?"

Beggar: "As I was goin' ter say, I'm an old soldier as is sufferin' from loss of memory."

A modern mother is one who worries when her daughter comes home early!

## Look at it this way

Cold cash melts lots of hearts where love has failed.

Talk success—and success is bound to come your way.

Great scholars never graduate in a hurry—they do it in degrees.

Under certain circumstances silence has the most telling effect.

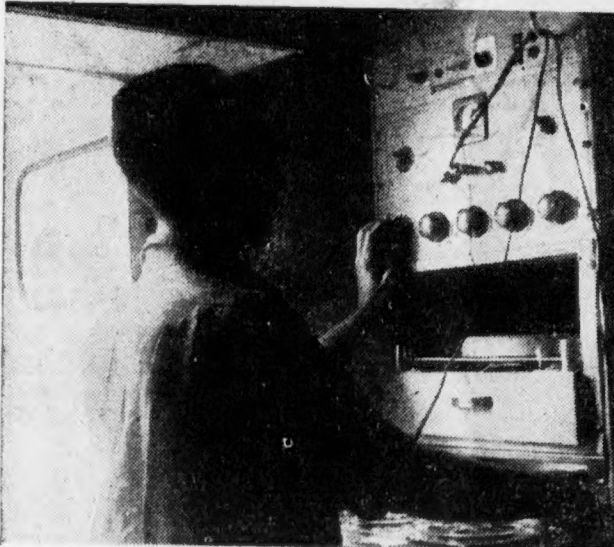

The main fault in most people is in having too many small ones.—The Journal, Humboldt, Sask., May 1, 1957

## Playground for Kids and Clowns Canadian Theatre-on-Wheels

A flick of mascara, a dab of colour, and the artist steps from reality into the fanciful world of make-believe. This summer, *La Roulotte* (The Show Wagon) will begin its

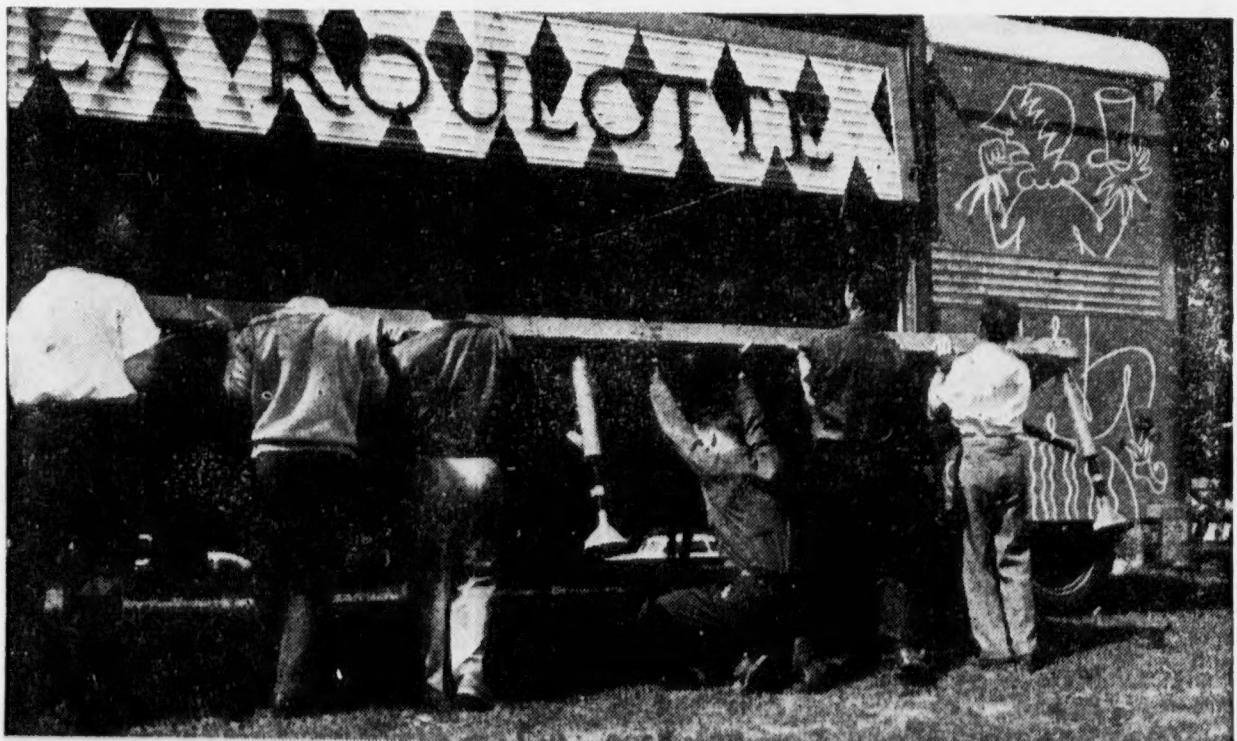

5th season of open-air theatre in Montreal's playgrounds with a repertoire of comic pantomime especially designed to delight the young.

*La Roulotte* carries an imposing array of equipment. Recordings are made on magnetic sound track; loud speakers bring voice and music to outdoor audience.

Created especially for children, the show attracts many adults on its tour of the city's playgrounds. Performances are given 5 nights a week for 10 weeks.

The sides of the trailer-truck go up as the company prepares to move to a new location. The big van carries in addition to its large stage, a sound booth, make-up

rooms and a complete system of lights for evening performances.

**BOY SCOUT ACTIVITIES**

Continued from front page  
 sure that they will be proud  
 to show you theirs.

The presentation was made  
 by the Lt. Governor of Alberta,  
 Hon. J. J. Bowlen, and, so I  
 have since heard, a television  
 camera was on the go during  
 the ceremony, so that many  
 people had a view of the cere-  
 mony while it was in progress.

Following the affair, a recep-  
 tion was held in the Boy Scout  
 Headquarters on 14th Avenue  
 S.W., and the boys were kept  
 rather busy obtaining autog-  
 raphs from the different Scout  
 officials who were present. I  
 believe that Arthur won the  
 race and obtained the most  
 autographs—if you care to call  
 it a race.

Incidentally, Canmore was  
 was the only other out-of-Cal-  
 gary town in which three  
 Queen's Scouts received their  
 Certificates. On the other hand  
 the Troop of the 1st Baptist  
 Church had the most for Cal-  
 gary of all the troops—eleven  
 Queen's Scouts.

Kindly do not embarrass me  
 by asking for my Certificate.  
 My brains are totally unable  
 to cope with all the knowledge  
 required to obtain this badge.  
 In the meantime the boys

have been forging steadily  
 ahead in their badge work, and  
 in promotions. Dale Gimbel,  
 Archie Ohlhauser and Ronnie  
 Gieck are now First Class  
 Scouts, and Larry Luft and  
 Michael Charlebois are not far  
 behind. Certain of the compar-  
 itive newcomers from the Cubs  
 have been going at it, and  
 Lloyd Esau and Harvey Harsch  
 are now Second Class Scouts.

We recently had a shake up  
 in the positions of certain of  
 the boys, and Troop Leader  
 Arthur Hoivik became Acting-  
 Assistant Scoutmaster; Patrol  
 Leader Wayne Garrett became  
 Troop Leader; Archie Ohlhauser  
 takes over as Patrol Leader  
 in place of Bobby Hood, who  
 we are sorry to mention is very  
 soon leaving us, and Ronnie  
 Gieck was promoted to Patrol  
 Leader of Wayne's Patrol.

Meanwhile, nobody has vol-  
 unteered to promote me out of  
 my job and take it over. Is  
 there no one in the district  
 who would care for some extra  
 work? You are entitled to  
 work harder for longer hours  
 for nothing, and receive plenty  
 of criticism and advice for the  
 doing of it! You will also re-  
 ceive just enough encourage-  
 ment to make you fail for an-  
 other year of it.

Anyway, I enjoy the socie.y  
 of the boys, and I am sure  
 that they are all Mummy's boys

—particularly Harvey Harsch.  
 Arthur Hoivik, Wayne Gar-  
 rett, Bobby Hood and Dale  
 Gimbel are accompanying me  
 on a trip to the west coast dur-  
 ing the month of July, and  
 consequently we will not be  
 here for the Scout Camp. Ar-  
 rangements for this have been  
 made, I understand, by the  
 Rev. John G. Roberts and the  
 Scout Group Committee. Good  
 luck boys, we hope that you  
 have a successful camp and  
 really enjoy yourselves.

If we arrive home looking  
 like something that the cat has  
 dragged through a knot hole  
 backwards, you will know that  
 we enjoyed ourselves too.

**TROUBLE WITH THE HEARING**

Trouble in the middle ear  
 may involve the hearing. It is  
 often caused by infection pas-  
 sing from the throat to the  
 middle ear via the Eustachian  
 tube. Any symptom of fullness  
 in the ear, pain, or impairment  
 of the hearing should have  
 medical attention promptly.  
**Neglect may result in loss of  
 hearing.**

**THE LONG FAST**

Breakfast is the most neglec-  
 ted meal of the day, although  
 it is the most important, since  
 it breaks the long fast from  
 the previous day's meal. A  
 breakfast recommended by the

## Canadian Weekly Newspapers

(These are not necessarily the views of the editor of this paper)

### Opportunity knocks . . . in the weekly field

(The Clarion, Kindersley, Sask.)

Most weekly newspapers, particularly here on the prairies, began as the practical expression of some printer's yen to get into business for himself. Even as late as the 1920's a weekly newspaper could be started with a very modest capital outlay. A good big platen press and a fair stock of hand type would enable a capable and energetic printer to publish a home town weekly. If he happened to have a gift of business management he might even make a little money at it—no fortune perhaps but a better-than-average living; far more than he could expect to earn setting type and running presses for wages.

Things have changed in many ways. Setting up a weekly plant is a more expensive proposition today—the old hand-set shop, like the quarter-section farm, just isn't an economic unit. Nevertheless weekly newspaper publishing is still one of the businesses small enough for an ambitious young man to aspire to. Today, however, if he hopes to make a success of the weekly publishing game, he had better have a wider range of skills and training. Better methods of transportation have put his commercial printing business in competition with the better equipped, large volume, city shops. The gradual maturing of the journalistic craft in general and the weekly press in particular has led the reading public to demand a higher standard of reporting and writing.

Consequently, in recent years, young people preparing themselves for a career in weekly journalism, have been looking to college level courses offered at a few universities.

The course offered the Ryerson Institute of Technology have found particular favor because, there, the student can combine training in journalism with training in printing management—a combination considered essential in the weekly field. Now the school is offering a streamlined course tailored especially to the needs of the student aiming at a career in weekly journalism. At the same time, the All Canada Insurance Federation is offering ten \$500 bursaries to help students whose financial standing does not match their other qualifications for the course.

To students and parents who are wondering about a career after high school, we recommend weekly journalism, it holds unusual opportunities for service, reasonable hope of material success and better than average security—the practice of horsewhipping or shooting editors has gone out of style.

### Perhaps you will agree

(The Press, Acton, Ont.)

Looking back after spending 18 years or so on school boards the following item from the Peterborough Examiner appealed to us with some force and we pass it on.

"Democracy attempts to do all that can be done to equalize opportunity. We do that by providing schools for all who can make good use of them. Obviously everyone must attend school long enough to learn certain necessary skills. But after that we recommend that children remain in school only if they can satisfy their teachers that they belong there; if they do not work, let them be given fair warning, and then, if they do not improve, let them be dropped from school—with the proviso that they may return later if they truly change their minds and want to do so.

"But cluttering the High Schools with pupils who do not want to work is not democracy; it is a silly form of national self-deception. There is nothing retrogressive in admitting that we overshot the mark by trying to educate the whole population to High School level. There are great strides to be made by clearing the High Schools—not of everyone who falls below the highest levels, but only of those who show plainly that they do not want to work. Our educational system is not in a stage of frozen perfection; let us recognize mistakes, and face facts as they appear through experience."

★ ★ ★

### The flop heard around the nation

(The Gazette, Grand Forks, B.C.)

We were all set to discuss the Social Creditors offering the people of Canada "pie in the sky" as a pre-election gift—but the quarter of the people who walked out of the Toronto meeting, attended by only 1800 out of a seating capacity of 2500, indicates that Canadians were too smart for the nonsense being given them . . . they saved us the trouble.

We understand the Hon. Dielenbaker, Conservative leader attracted bigger crowds in Social Credit strongholds in the West. So we would suggest that if Canada is to return to a two party system as Solon Low suggests—that they will—Conservative and Liberal.

Sorry Messrs. Low, Manning and Bennet. You had better take a look around Ottawa this visit back East—you won't be living there.

### Smiles are getting tiresome

(The Mercury, Estevan, Sask.)

For some time now a custom has been in vogue that might well be commented upon. It would seem that four out of five people who face cameras for pictures for the press consider it necessary to smile or at least show some degree of levity in their expression.

Why they should do this is anybody's guess. Press photographers have long since discarded the phrase "smile and look pleasant please."

Actually to see day after day the passing line-up of smiling, grinning, smirking faces gets more and more tiresome, for everyone knows that the pose is unnatural and assumed in all but a few cases. It seems that these latter few who have genuinely and continuously happy features are being deprived of their real claim to attraction by being mixed in with the artificialists and the fakirs.

Maybe everyone is entitled to the opinion that he or she must look natural, and we hope that many who are caught smiling by the photographer are not as natural as they look.

The last generation of politicians have fallen for this smiling stuff. Whether or not they think it has a stronger electoral appeal than the old baby-kissing routine, matters little. Some of them look plain silly. How anybody, thinking of voting for a sensible businessman type of candidate can poll a vote for such a smile is a conundrum.

Those with prominent front teeth would be well advised to gather up all their "smilers" and get a sensible picture taken. There are those whose smiles are long and deep like Joey Brown's but we do not think that even that would get them a job in Hollywood.

Then there are those whose little smile makes you wonder whether they are unsure of themselves or whether in a superior way they are inwardly concluding that in their opinion you are a sap.

A smile can be a disarming thing and maybe some of these modern politicians have found that out. If so electors should make it a point to find what and how much is behind the smile.

The entertainment world is about the only place where applicants for jobs are expected to smile. It goes with the profession. Any other form of business or profession expects applicants to be—pleasant, yet—but serious in their manner of approach.

The job of being a people's representative is a serious job, or should be. The smiling politician, as pictured, could give the impression that he thinks it is just a bit of fun.

No one ever expected Sir Winston Churchill to smile in his election approach, but then he did not find it necessary to try to look pleasant.

Maybe there are others in the political field who would carry more weight if they looked natural and refrained from smiling every time a flash bulb goes off.

There is nothing quite as pleasing as the smile that is in harmony with the facial expression as a whole, yet there is nothing quite as attractive to study as the serious face which reveals the true character.

★ ★ ★

### Crop of promises

(The Herald Tribune, Grande Prairie, Alta.)

The first crop of promises in this political harvest has been taken off by the Social Credit party with a giant rally in Toronto. The rally was poorly attended, and fell far short of the organizers' hopes.

That didn't deter the speakers from promising a thirty percent cut in income tax, and thus waving the first carrot in front of the voter.

The promise of such a reduction is a very alluring one, but it's an obvious sample of political doubletalk. You can't cut taxes in one place without piling them up somewhere else, unless it's done to the detriment of the economy. Such an income tax cut, without a parallel increase elsewhere in taxes, would certainly have that effect today.

Nobody likes to pay income tax, but it's safe to say that most would rather pay it and see the nation's economy stay on a safe keel. And if they know it's merely being given to them with one hand and removed with another, there's little real pleasure offered.

Taxes can't be cut so generously without something suffering. And, if the Social Credit party would reduce them by that much given power, what department of government would suffer? We cannot afford to slacken our defence effort, nor can we afford to reduce substantially the expenditures of any other department. That much is obvious to most voters.

Thus, if a tax is reduced on one hand, the money must be forthcoming from somewhere else. That's elementary, even to the most ill-formed voter. The Social Credit party would be paying the voters more of a compliment by talking to them as though they—the voters—were possessed of a few wits.

Loveliest lines!

PRINTED PATTERN

The "Empire-Princess" — this new Printed Pattern fashions the very loveliest lines for your figure! Graceful dress with scoop neck, high empire bodice, smooth fitted and flaring silhouette. Little bolero — perfect coverup!

Printed Pattern 4792: Misses' Sizes 10, 12, 14, 16, 18, 20. Size 16 dress, bolero 4 1/2 yards 35-inch.

Printed directions on each pattern part. Easier, faster, accurate.

Send forty cents (40c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

## Nova Scotia does Provincial financing

(Contributed by Houston, Willoughby & Co. Ltd.)

The past week saw the first provincial offering of securities in Canada in the past month, with the offering by the Province of Nova Scotia of \$5 million of debentures.

The Nova Scotia's carry a 5% coupon and are due 20 years hence. They were offered by the purchasing syndicate at a price of \$99 to yield 5.08%. Towards the close of the week it was understood that Institutional buyers had taken about 1/3rd of the issue and the remainder was still being offered across the country. There was some feeling that the bonds were a little rich for the market at the present time.

Offering was still taking place of some segments of the recent issue of \$7,651,000 of City of Hamilton 5 1/4% non-callable debentures, with most terms available running from 1967 to 1977, and yields running around 5.37% to 5.40%. There are also said to be bonds still around in a couple of other Eastern Municipal offerings, and of course the forthcoming new \$10 million City of Montreal 5 1/2% 20 year Sinking Fund issue is slated for the very near future.

Northern Ontario Gas Financing expected early June

Originally scheduled for around the middle of May, the public financing for Northern Ontario Natural Gas Ltd. now is understood to be not planned until the first week in June.

It is apparently not yet decided as to what the size of the issue will be, but it is believed there will be around \$10 million of Units consisting of 1 debenture and 1 common share, with the offering price at about \$30 per Unit. It was stated earlier by the President that the company would need about \$25 million in public and private financing to service the franchise area from Sault Ste. Marie to Orillia in Ontario, although Sault Ste. Marie is not included in the servicing segment.

No further reference has been made to the method of distribution of these Units, although all signs point towards distribution among persons who will use the services of the company in that area in addition to sales to institutional investors.

The week's Treasury Bill results provided buyers with an average yield of 3.78% for the 91 day Bills as against an identical yield for the previous week. Three was a come-back in the price levels of some of the recent Corporate issues with the B.C. Electric Units traded above the issue price, and the Bell Telephone 5% bonds and B.A. Oil 5 1/4% being quoted at or above the issue prices in each case, as opposed to lower quotes for the last couple of weeks. The Trans-Canada Pipeline Units were the feature of the trading in outstanding Corporate issues reaching a level of \$220 to \$222 at time of writing. The Quebec Natural Gas Units were also stronger.

A new issue was a small offering of one million and a half of Avalon Telephone Co Ltd. 5 1/2% debentures due 1977 and carrying stock purchase warrants, offered at \$97 to yield 5.75%.

Avalon Telephone owns and operates the telephone system in the Avalon Peninsula, Corner Brook, Grand Falls, and other areas of Newfoundland. Company's income in 1956, before deducting depreciation, interest and income taxes, was \$856,249, or more than 4.15 times maximum interest requirements on all bonds to be outstanding upon completion of the present financing.

Also offered was an issue of \$2 million of 25 year 5 1/4% First Mortgage Sinking Fund Bonds plus ordinary stock of the United Towns Electric Co. Ltd. This is a Newfoundland Utility Firm with proceeds to be used for the payment of Bank loans amounting to \$1,400,000 incurred to meet the company's expansion program to date. The balance will be used to continue this program to meet continuing increased demands for power.

The securities are offered as a unit of \$500 of bonds and 5 ordinary shares, the price being \$547.50, with dividends and interest providing an annual return of 5.98%.

Corporate financing for the first quarter of 1957 is higher by about \$400 million than the same period last year. There seems reasonable expectation that the level of capital expenditure in the latter part of 1957 will not exceed the 1956

rate. With savings deposits continuing to reach all time high levels, there may be some real basis for the recently expressed view that interest rates will level off somewhat in the latter part of the year. There has been a better tone to the United Kingdom bond market with prices having been helped by rumours of a drop in the discount rate by the Bank of England.

### Send \$1,000 from district, part of Red Cross sum

The Grenfell Branch of Canadian Red Cross recently sent a cheque for \$1,000 to Regina headquarters as part-payment on its quota of \$1,200, reports secretary-treasurer Jim Kerr.

Total amount collected so far in town and district is \$1,091.19. There are still a few returns to be made from the country.

Mr. Kerr wishes to remind the public the fund is still open. Donations can be handed in to him at his office. He remarked that money is often handed in as late as the fall so the quota may yet be reached.—The Sun, Grenfell, Sask. —May 15, 1957.

## NATIONAL WILDLIFE WEEK

"WILDLIFE AND RECREATION" IS THE THEME OF SASKATCHEWAN'S 1957 OBSERVANCE OF NATIONAL WILDLIFE WEEK. MANY ACTIVITIES ARE INCLUDED IN THE RECREATIONAL USE OF WILDLIFE, INCLUDING THE CASUAL VIEWING OF WILDLIFE IN THE COURSE OF OUR DAILY LIFE.

HUNTING IS A MAJOR RECREATIONAL USE OF WILDLIFE. THERE ARE NOW AN ESTIMATED 50,000 HUNTERS IN SASKATCHEWAN, AND THEY, BY HARVESTING THE ANNUAL CROP, HELP KEEP OUR GAME POPULATIONS HEALTHY.

THOUSANDS MORE FIND RECREATION THROUGH STUDYING OUR WILDLIFE IN THEIR NATURAL SURROUNDINGS AND THROUGH THEIR STUDIES WE GAIN ADDITIONAL KNOWLEDGE OF OUR WILDLIFE.

# NEIGHBORLY NEWS C.B.C.

C. F. GREENE

Good morning, neighbors:

Attending a weekly newspaper convention recently, we were distressed to hear that the time of our broadcast was too early for some good neighbors in certain areas of the west—due to time changes. We are not so vain as to think that these neighbors should be up in the morning to listen to us—but Grace Wright had a little poem in the Olds Gazette, Alberta, recently which does give a reason for early rising. The verse entitled "Sunrise" read:

New every morning, yet so old,  
The sun rises in a rosy glow  
To line the mountains white and gold,  
Long before it shines below.

Yet those who do not care to rise  
As early as the dawn's first night,  
Must miss the glory of the skies  
Uncovered by the passing night.

Can just one hour of sleep be worth  
The loss of such a chance as this—  
The chance to find, so rare on earth—  
A moment fraught with perfect bliss?

Probably having to get up very early at times has been the experience of Mike Pohoreski of Lenville, Saskatchewan—the Mel-fort Journal stating: After 40 years carrying mail, Mike Pohoreski has given up the job of watching for the train, but will still be the postmaster, as the mail comes by truck now. Mr. Pohoreski served 10 years at Trilid, Saskatchewan, 10 years at Zalicia, Manitoba, and 20 years at Lenville.

That's forty years, and we see by the Drumheller Mail, Alberta, that the Hand Hills district Stampede is the oldest consecutively-run Stampede in Alberta and that Mrs. Leslie Flett has attended 40 Stampedes—a perfect attendance record.

Another type of record is mentioned by the Elmwood Herald, Manitoba, in its report that the other day, an interesting event took place at Melrose Junior High School when an Award of Merit certificate was presented to J. M. Hawryluk, principal, by John Bruce, chairman of the Manitoba March of Dimes committee, on behalf of the Society for Crippled Children and Adults of Manitoba. Mr. Bruce in thanking the pupils and staff for their recent contribution of \$525 stated that Melrose School was the first school ever presented with a Certificate of Merit in Manitoba.

A first time effort is noted in the Wetaskiwin Times, Alberta, with its report that Bill Gust is the latest local golfer to become a member of that select group, who have scored a hole-in-one. Bill's effort deserved special mention because it was made on the local club's first hole—a 203 yard par 3. This is the first time in the history of the club that a hole-in-one has been made on this particular hole. Also, Bill was a beginner last year with the club.

Another Alberta paper, the Wainwright Star gets in on this golfing record by stating: It is reported that our president, Ed Worobets made a hole-in-one on the 4th hole the other day. The only thing wrong was that it was a gopher hole and not the cup. Last reports from the spot observers say that he is still digging. Tough luck, Ed, comments the Star.

And tough luck seems to beset

a certain Manitoba volunteer Fire Brigade. According to the Hartney Star. Last year on the night of the fireman's ball, a fire alarm sent the brigade to the home of Harold Atkinson. This year on the morning of the fireman's ball, an alarm sent the outfit to Ronald Atkinson's garage.

But Good Luck was the lot of a Manitoba farmer—as the result of good-neighborly spirit. The Pilot Mound Sentinel notes that one day last week, a number of friends of James Stiff gathered at his farm to assist with spring seeding operations. With nine tractors and other necessary equipment in operation, the project was completed during the day—with time off to partake of a hearty chicken dinner. Fuel for the tractors was provided by courtesy of the community's own pipeline—and much appreciated.

Before we leave the farm scene, we must pass on this story told in the Didsbury Pioneer, Alberta. Old Ben had farmed his 360 acres for fifty years and had finally sold out. The auctioneer took his commission and handed Bill and his wife the roll of bills. "Well, now," he said, "I guess you're all ready to start that trip you've been talking about so long. Where are you going first?" Ben stretched comfortably and knocked the ashes from his pipe. "Farmin' has been hard work," he said, "and I figure on a real good rest right off. We aim to find one of them tourist places in the mountains. The first week I'm just gonna set on the big front porch in a rockin' chair. And the second week I'm gonna start to rock."

"And I'm going to prosecute someone" declares a neighbor putting in this notice in the Watson Witness, Saskatchewan. Would the party that is interested in stripping my car at nights, please return the missing parts, or, when caught will be prosecuted.—signed, J. W. Zahara, Watson.

Well, you can't strip another form of transportation—the horse—and we see by the Carillon News of Steinbach, Manitoba, that the other Sunday Mr. and Mrs. John Kehler of Rosseau River wanted to visit their daughter and son-in-law, Mr. and Mrs. Abe Zacharias at Stuartburn. However, on account of a bad spot on the highway they knew they couldn't make it with the car—so they "just hitched old Dobbin to the shay," and made the trip by horse and buggy. They got there all right too, and back again, which declares the Roseau River news correspondent is more than can be said for some attempted auto trips on our spring roads.

"Old Dobbin and The Shay", were very familiar to these old-timers recently celebrating birthday anniversaries in the gay-ninety class. S. S. Grandpa Lee of Lousana, Alberta, 90—John Sharpe of Elva, Manitoba, 91—R. H. Fusee of Merritt, British Columbia, formerly of Neepawa, Manitoba, 93—Homer Treadway of High River, Alberta, 92—and Mrs. Alice Lyons of Mapleton, Manitoba, 95 last Sunday.

Speaking of years, the Shellbrook Chronicle, Saskatchewan, reports that Miss Ann Shierling of Durban, South Africa, is visiting her sister, Mrs. Sophie Beckmyer, and family. It is 31 years since the sisters last saw each other.

And what a sight faced a certain school teacher, according to this report in the Rapid City Reporter. Miss Margaret Wilkie having con-

sented to the girls wearing slacks to school, one of the boys asked the question: "If the girls wore slacks, could the boys don skirts?" Miss Wilkie, little dreaming that it would happen, agreed that it would only be fair. On the last day of school before the Easter holidays after the dinner hour, Freddy Edwards, Ken McCoy and Skippy Wright were observed in skirts. They also had on their usual attire, with pant legs rolled up out of sight.

And this scene in a farmyard must be quite a sight too. The Westlock Witness, Alberta, tells us that a motherly old sow on the farm of Mr. Louie Kaufman in the Clyde district had raised a fine family to weaning age. Another sow had a young litter but failed to supply them with milk so the motherly old gal took over the hungry young ones and is doing a fine job of nursing them along. This is indeed unusual in the raising of pigs.

You can't make a silk purse out of a sow's ear, they say—but you can make your town beautiful—if you really want to. For example the Virden Empire-Advance, Manitoba, hopes that Virden's 75th Anniversary Flower, the scarlet flame giant dahlia zinnia (red zinnia for short) will be blooming in the gardens of the town and district during the week of July 21 to 26, lending a note of brilliant color to the background of the celebration. Zinnia seed, donated by Lindenberg Bros. Ltd. of Brandon, has arrived and is available free to those who promise to plant the flowers around homes and business places.

Two 60th wedding anniversaries were noted in last week's papers—the Coronation Review reporting that of Mr. and Mrs. Frank Kilborn of the Federal district—and the Swift Current Sun, Saskatchewan, referring to the 60th wedding anniversary of Mr. and Mrs. M. H. Geddes, former residents of Swift Current, now living in Rouleau.

Coming back to our mention of the Horse and Buggy days—a Tribute to the Village Smithy, written by Isobel Branum, is printed in the Hanna Herald, Alberta. It states in part: W. B. Anderson, resident in Craigmyle since 1914 celebrated his 74th birthday April 15. Nothing outstanding about that; we have old residents. However, we do not have a resident who has been in the blacksmith business as Mr. Anderson has been

and still is, after 60 years. Yes, you can still find Bill, as he is known to a host of friends, pounding the anvil, awakening memories of the horse and carriage age, for the mechanized farmer still has plowshares sharpened and welding done. To this village blacksmith, we pay high tribute. Bill Anderson and men like him have paved the way by hard work, untiring effort and great sacrifice to make our Canada the great country it is. We offer our most humble thanks and to Bill Anderson we say "well done!"

The old and the new meet in this little news item in the Wilkie Press, Saskatchewan. Donald Scott of the Scott district, while cultivating one of his fields last Tuesday, found a perfect Indian hammer head. The same day he also found one of his own hammers that he lost three years ago in the same field.

Another old thing turned up in the Duck Lake district, Saskatchewan. According to the Rosthern News, when an old home was torn down recently on the Duck Lake reserve the working men found in one wall of the house a cheque of the Bank of British North America, dated December 31, 1909, and made out to Joe Seesequasis who had endorsed the cheque. How the cheque had become lodged in the wall of the old house will probably never be explained, comments the reporter.

An explanation in advance of something else is furnished by Bill Robinson who writes a Rod and Gun column in several Manitoba weekly papers. He says: Don't be surprised if you see mallards with pink or green wings this year! You are not seeing things. These are birds that have been specially colored for research purposes by the Illinois Natural History Survey.

Finally, a school story in the Pincher Creek Echo, Alberta. "Daddy", said a young lad, "my teacher wants me to prove that the white man is superior to the Indian: Can you help me?" "Don't think so, son," replied Daddy. "When the white man took over the country the Indians were running it. There were no taxes. There was no national debt. The women did all the work. How could you improve on a system like that?" And with that—we'll say, good morning neighbors, and keep smiling.

## SATURDAY NIGHT STORE HOURS HERE

Stores in Humboldt will remain open until 9:30 p.m. Saturday nights starting this week. The later closing will be in effect until Christmas. On week days previous to a holiday stores will also remain open until 9:30. These are the same hours as were in effect last year.—The Journal, Humboldt, Sask.—May 2, 1957. 3249

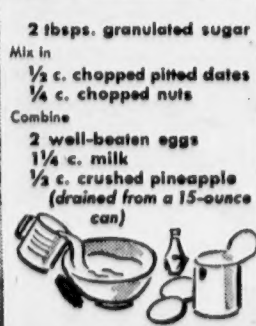

**CLEAN, CRISP, NEW VEGETABLES IDEAL FOR SALADS—**Plans for Salad Week, July 25th to August 3rd, are well underway from coast to coast in Canada—but salads made from June vegetables and fruits are good, too! This picture from the Consumer Section, Canada Department of Agriculture shows vegetables being prepared for salads. Note the gentle way in which greens are handled during washing.

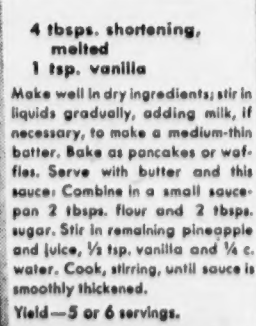

## Surprise your family with luscious TROPICAL PANCAKES!

(Bake as Waffles, too)  
Sift together once, then into bowl,  
2 c. once-sifted pastry flour  
or 1 1/2 c. once-sifted all-purpose flour  
3 tps. Magic Baking Powder  
1/2 tsp. salt

2 tbsps. granulated sugar  
Mix in  
1/2 c. chopped pitted dates  
1/4 c. chopped nuts  
Combine  
2 well-beaten eggs  
1 1/4 c. milk  
1/2 c. crushed pineapple (drained from a 15-ounce can)

4 tbsps. shortening, melted  
1 tsp. vanilla  
Make well in dry ingredients; stir in liquids gradually, adding milk, if necessary, to make a medium-thin batter. Bake as pancakes or waffles. Serve with butter and this sauce: Combine in a small saucepan 2 tbsps. flour and 2 tbsps. sugar. Stir in remaining pineapple and juice, 1/2 tsp. vanilla and 1/4 c. water. Cook, stirring, until sauce is smoothly thickened.  
Yield—5 or 6 servings.

Your baked goods are so much lighter, so delicious, when you bake with dependable MAGIC! Get MAGIC Baking Powder today!

## FIELD DAY JUNE 26th

At the Acme District Experimental Substation on the farm of Ralph Brown, 4 miles east of Acme on Wednesday June 26th at 11 o'clock. From 11 till noon there will be films for the children; Farm Tour for adults; W. J. Doran, Forage Division, Experimental Farm, will speak on "Forage Crop Species." Lunch at noon. Booth on the grounds. From 1 p.m. until 5 p.m. there will be a Haying and Silage Machinery Demonstration. Speakers, Cam Kirk, Olds School of Agriculture and Don Dew, Lacombe Experimental Farm. For the Ladies, Miss Helen Howard, District Home Economist, Olds, will speak on the subject "Focus on New Fabrics". H. T. Allen, Horticulturist at Experimental Farm, Lacombe, will be on hand during the day to discuss horticultural problems. (Sponsored by—Provincial Department of Agriculture; Dominion Experimental Farms Service; Drumheller Agricultural Society and Service Board M. D. Kneehill).

DAIRY FIELD DAY & 4-H  
DAIRY ACHIEVEMENT DAYS

The Dairy Branch and Extension Service of the Alberta Department of Agriculture are co-operating with local committees in holding a combined Dairy Field Day and Achievement Day of the Three Hills 4-H Dairy Club to be held at the farm of Mr. Larry Edwards at Three Hills on July 2, 1957 and for the Carbon 4-H Dairy Club to be held in the Park at Carbon on July 3rd, 1957. The program for both days is as follows:

**Forenoon**—Members of the 4-H Dairy Clubs will hold their local Achievement Day starting at 10 a.m. with the showing of the calves. Judge—D. H. McCallum, Dairy Commissioner. Lunch at noon.

**Afternoon**—The afternoon program will commence at 1:30 p.m. and will include the following talks and discussions:

1. Dairy Situation and Outlook and Factors Affecting Production Costs—D. H. McCallum, Dairy Commissioner.
2. Dairy Cattle Housing—L. Reed, Agricultural Extension Engineer.
3. Hay and Pasture Crops—S. W. Pettem, District Agriculturist.
4. Quality Milk and Cream Production—D. J. Prince, Dairy Inspector.

A cordial invitation is extended to all interested parties. Plan now to attend.

## SLOW DOWN AND LIVE!!

High speed and tired drivers are blamed for most summer highway accidents by the Canadian Highway Safety Conference in a reminder to Canadian motorists.

Learning to slow down and take it easy is the beginning of wisdom at the wheel, says the Conference which suggests the following code for safe

driving:

1. Slow down at the first glimpse of children playing in the street.
2. Slow down at intersections, traffic circles, and railway and cattle crossings.
3. Slow down before entering city and town limits and any other crowded area.
4. Slow down for coffee breaks every 100 miles.
5. Slow down after dark and under bad weather or road conditions.
6. Slow down to give the other fellow a chance, even if he is only a pedestrian.
7. Slow down for greater comfort and less strain. You'll enjoy your trip more, and will survive it!

DAIRY HEIFERS—  
SUMMER FEEDING  
AND MANAGEMENT

Ray Dixon, Supervisor of Alberta's Dairy Cattle Improvement says the entire program of feed, care and handling of calves and heifers should be with an eye to their future usefulness as dairy cows. Neglect of heifers on pasture is perhaps due to the fact that the heifers are not bringing in any immediate cash income and failure to realize future

income will depend on how the heifers are developed.

For calves, proper sanitation and adequate feeding are essential. When available, skim milk can be fed up to six months of age to advantage. If not available, milk-replacers are necessary. Whole grain, salt, good quality legume hay, pasture, shade and water are needed for calves of this age. **Scrawny calves on pasture** are usually not a result of the pasturing, but of the lack of milk and grain and of proper daily attention.

Heifers should be kept growing when on pasture. If unable to provide enough pasture of good quality, feed some legume hay as well. Whether it will be necessary to feed grain or other concentrates to heifers of six to twelve months of age when on pasture will depend on the amount and quality of the pasture. If the heifers show plenty of growth, pasture alone may be satisfactory but it is often necessary to add a small amount of grain to keep them growing well. In the spring when young heifers are first turned to pasture, it is best to continue feeding some hay until they get used to the lush, laxative green feed

## FIELD DAY

AT THE

ACME DISTRICT EXPERIMENTAL  
SUB-STATION

## ON THE FARM OF RALPH BROWN

4 MILES EAST OF ACME

WEDNESDAY, JUNE 26 AT 11:00 A.M.

## PROGRAM

11:00—12:00 A.M.—Films for the children.

—Farm tour for adults.

—W. J. Doran, Forage Division, Experimental Farm will speak on 'Forage Crop Species'.

12:00—1:00 P.M.—Lunch—Booth on the grounds.

1:00—5:00 P.M.—Haying and Silage Machinery Demonstrations

Speakers: Cam Kirk, Olds School of Agriculture

Don Dew, Lacombe Experimental Farm

## FOR THE LADIES

Miss Helen Howard, District Home Economist, Olds, will speak on the subject, "Focus on New Fabrics".

and

H. T. Allen, Horticulturist, Experimental Farm, Lacombe, will be on hand during the day to discuss horticultural problems.

Sponsored by—Provincial Department of Agriculture.

—Dominion Experimental Farms Service.

—Drumheller Agricultural Society.

—Service Board M.D. Kneehill.
